

Preparing the way for a life well-lived.

Calvary Schools of Holland thoughtfully employs the philosophy and methods of the renowned Christian educator and author, Charlotte Mason, in our elementary and middle schools. This educational approach immerses students in living ideas from renowned authors and artists, teaching them how to speak about what they see and hear in their own words. It's a homelike, relationship-rich atmosphere in which children are empowered to love learning for the sake of learning, as we combine A-B-C and 1-2-3 with a focus on building strong work habits and character.

In our Junior Kindergarten and Kindergarten programs, Calvary provides a unique opportunity for parents to choose a half-day or full-day schedule for their four- and five-year-olds. In our four-year-old Junior Kindergarten (K4) program, children may attend school two, three or five mornings a week, with an optional afternoon extension program. Five-year-olds may attend five half days or five full days of school in our Kindergarten (K5) program, allowing parents to determine the most developmentally appropriate option for their child.
